

MOBILE AI-DRIVEN SITUATIONAL AWARENESS FOR LAW ENFORCEMENT & PUBLIC SAFETY

Portable Intelligence. Trusted Evidence. Safer Communities.

Platform Overview

LEAPS360™ is BlueFusion's mobile, AI-driven situational awareness platform that transforms any patrol vehicle into a fully self-contained, intelligent sensing platform. Unlike fixed, cloud-dependent surveillance systems requiring permits and trenching, **LEAPS360™** delivers rapidly deployable 360° awareness, secure evidence collection, and real-time incident intelligence by keeping all evidence under agency control. With the data processed and stored locally on the vehicle, agencies maintain full ownership of sensitive data while reducing latency, bandwidth costs, and cybersecurity exposure tied to cloud-only architectures.

***Deploy in hours—not months. No permits. No poles. No trenching. No cloud dependence.***

Data and evidence ownership, lower latency, higher availability, lower infrastructure cost, minimal cyber exposure.

Processed and secured locally on the vehicle.

Key Capabilities

- ✓ 360° exterior situational awareness
- ✓ AI-powered edge analytics
- ✓ GPS & inertial sensor based event localization
- ✓ Synchronized recording with up to 10 cameras
- ✓ Day and night operation
- ✓ Integration with vehicle telematics via OBD-II
- ✓ Tagging & search
- ✓ Secure evidence upload

Key Advantages

- ✓ No permits or digging required
- ✓ Resistant to vandalism with vehicle-mounted design
- ✓ No vendor lock-in or infrastructure dependency
- ✓ Extreme portability. Deploy anywhere, on-demand
- ✓ Fully encrypted local data storage
- ✓ Officer-controlled data access
- ✓ Offline operation without an active Internet connection
- ✓ Ultra low-power edge AI processing

How LEAPS360™ Addresses Law Enforcement Agencies' Challenges

Customer Challenge	LEAPS360™ Solution
Data ownership	Agency owns & controls its data
Cloud storage	Encrypted in-vehicle local storage
Unauthorized data sharing	Data sharing is under agency control
Vendor lock-in	No vendor lock-in
Lack of privacy	Privacy-first Edge AI processing.
Unauthorized access	Officer-controlled data access.
Need secure evidence	Encrypted local evidence storage
Need offline operation	Works without an active Internet connection
Need easy deployment	No permits or digging required
Need public trust	Sensitive data stays under the agency control
Need flexible deployment	Portable vehicle-mounted solution
Need local AI and analytics	AI and analytics run on edge computers

MOBILE AI-DRIVEN SITUATIONAL AWARENESS FOR LAW ENFORCEMENT & PUBLIC SAFETY

Portable Intelligence. Trusted Evidence. Safer Communities.

Choose the LEAPS360™ Configuration That Matches Your Mission

Three Configurations | One Platform | Uncompromised Capability

Features	Professional	Advanced	Elite
Exterior Cameras	4	8	10
Resolution / Frame Rate (max)	6 MP / 25 fps	6 MP / 25 fps	6 MP / 25 fps
GPS / IMU / Audio / OBD-II	✓	✓	✓
Local Data Storage	Up to 30 Days*	Up to 15 Days*	Up to 7 Days*
Deployment	Patrol Vehicles	Patrol and Traffic Vehicles	Large Vehicles & Special Operations
Business Model	Monthly Subscription	Monthly Subscription	Monthly Subscription

* Depends on frame rate, resolution, and hours of operation per day.

Mission Applications

Law Enforcement Operations	Public Safety and Security	Evidence and Investigations	Fleet Operations and Infrastructure
Patrol vehicle intelligence	Crime prevention & deterrence	Evidence collection	Fleet operations
Traffic enforcement	Special events & crowd security	Forensic review	Critical infrastructure protection
Traffic collision documentation	Campus police	Incident reconstruction	Public works support
Parking lot patrol	Transit police	AI-assisted evidence search	Smart city deployments
Officer safety & situational awareness	Emergency response	Digital evidence management	Mobile surveillance & rapid deployment
Stolen vehicle investigations	Government facility security	Multi-camera evidence correlation	Transportation infrastructure monitoring

Why Agencies Choose LEAPS360™

Key Differentiators	What Sets LEAPS360™ Apart
Privacy First	Sensitive evidence remains encrypted and stored on the vehicle under agency control.
AI at the Edge	Real-time AI analytics without cloud dependence.
Built for Public Safety	Purpose-built for law enforcement and government fleets.
Portable by Design	Deploy on virtually any patrol vehicle without permanent modifications.
Scalable Platform	Scale from one patrol vehicle to an entire fleet.
